Sealbrite Cone Sleeves

- Conformity:** If fitted with to a cone complying to BS873 : Part 8 the cone sleeve meets the requirements of BS 873 : Part 6 : 1983 and the Provisional European Standard EN 13422 Class R1B.
Production is carried out in a BS EN ISO 9001 : 2000 Quality System.
- Performance:** The sleeve meets the retro reflective and luminance requirements of the above standards. The sleeve should be placed on a cone to the above requirements to ensure that the complete unit meets the requirements.

The sleeve has a pocketed design to limit water ingress should the outer protective layer become damaged, ensuring continued performance.
- Materials:** White PVC sheet
Metalised ink and glass beads
Clear PVC sheet
- Instructions for Use:** The cone sleeve should be placed on a cone that conforms to BS 873 and/or EN13422 and placed on the roadway in accordance with local regulations. To meet the above regulations it will be necessary to keep the cone clean.
- Cleaning & Maintenance:** The cone sleeve and cone should be cleaned with a mild road film detergent solution and a cloth. Abrasive substances or solvents will damage the cone sleeve and reduce it's performance.
- Limitations of Use:** Does not comply with the Traffic Signs Regulations and General Directions 2002 unless fitted to a cone that complies.

Modifications to the cone sleeve or cone may render the cone nonconforming to the above standards.
